

## Sliding trays

## Model 70

**Use**

Model 70 is a universal pass-through for counters at standing or sitting height, for handing over coin rolls, strongboxes, money boxes and bags of money.

The unit has M3 firearms protection.

**Safety and features**

- Slider for handing over coin rolls and objects such as files, documents and passes up to 30 mm high.
- Hatch for larger objects.
- Slider and hatch stop each other from opening at the same time.
- It is not possible to reach through the hole when the flat tray is extended or manipulate the mechanism.
- Model 70 fulfils German UVV regulations.
- Suitable for indoor use.
- Model 70 has M3 firearms protection (with certificate)

**Materials and use**

- The tray consists of a steel insert lined with polyurethane foam and a black-brown powder coating.
- Fascia, hatch and inner base made of brushed stainless steel.
- Frame and deep tray made of steel with a black-brown powder coating.
- All metal parts have been produced using state-of-the-art precision laser cutting technology for ultimate quality.
- Model 70 is best suited to indoor use.
- The entire unit requires no maintenance. No need for cleaning or lubrication.

### Model 70

#### Installation and dimensions

The unit comes ready for mounting in prepared counter sections. It is inserted into the wall recess from above on the counter side.

Model 70 R (countertop version) is surrounded by a cover plate which closes the gap between the unit and the counter.

Consideration must be given to access requirements and the possible need to remove the unit later in the unlikely event of repairs.
