

Outdoor use - high security

Model 54.01

Use

Model 54.01 is a flush-fitting sliding pass-through that comes ready for installation and comprises an integrated two-way intercom system.

The unit is ideal for high-security use as a gatehouse unit in indoor areas and roofed outdoor areas –such as central banks, penal institutions, embassies and military establishments. FB7 firearm certification comes as standard.

Safety and features

- Sliding pass-through for pedestrians, fits flush with outside façade; front panel and integrated intercom for automatic two-way conversation.
- Manual drawer operation only possible when cover is closed – mechanical automatic lock.
- Locks automatically in either end position. Lock can only be released by the operator behind the counter by using the lever.
- Tamper-safe: it is not possible to reach through the hole when the drawer is extended or manipulate the mechanism.
- Dust and draught sealed.
- Materials offer firearms protection, capable of withstanding heavy gunfire eg, up to G3 battle rifle. Has received FB7 certification from the firearms licensing authority.
- Model 54.01 fulfils German UVV regulations.

Materials and use

- Steel plate pass-through.
- Armouring and additional steel plates.
- Front panel, carriage floor and inner cover made from brushed stainless-steel.
- All metal parts have been produced using state-of-the-art precision laser cutting technology for ultimate quality.
- Model 54.01 is suitable for indoor and outdoor use in covered areas.
- The unit requires no maintenance. No need for cleaning or lubrication.
